

SETH GRABEL

TRANSFORM YOUR REALITY
DEFINE YOUR ILLUSION

I love what I do and do what I love! It's important to always try to be the best and never give up. My bulldog persistence is paying off. I am going to change the way people view magic!

My favorite quote is "you can or you can't - in either case you're correct!"

- Seth Grabel

BIO

Seth Grabel's achievement as a Celebrated Performer, Magician and Illusionist is the quintessential American success story — from his childhood passion for mystery and illusion to his spectacular performance on America's Got Talent.

Seth Grabel was born with innate entertainment skills as his mother was a professional dancer and his father was an accomplished Magician. Seth was destined for the bright lights of Hollywood.

The stage was set for his meteoric rise to stardom when, at his fifth birthday party, his parents hired a magician to entertain the children. Right away, the impressionable Seth was hooked on illusion. He took an immediate fascination to the idea of thrilling audiences with the art of magic; the awe and joy that results from this form of entertainment.

Combining his acquired marketing and branding experience from his successful father, along with a top education at UNLV, Seth's love for magic exploded into a serious and lucrative profession.

With a fierce determination and dedication, he began perfecting his magic skills in front of a mirror in his small studio apartment. Soon after, Seth's mesmerizing talents were in high demand.

In 2006 Seth was discovered by the Amazing Johnathan, and was soon asked to perform alongside him. Seth describes the three year experience as "One of the most incredible periods of my life".

"I learned everything from timing and precision, to the smallest details, like mental preparation and stressing the importance of showmanship and likeability." Working with the Amazing Johnathan allowed for the development of a truly fresh sense of humor to be incorporated into his shows. Jonathan's most imperative piece of advice was to find a way to define yourself as a magician and have your own "signature".

AcroMagic quickly became Seth's most defining feature as a performer. This revolutionary concept incorporates Acrobatics and Magic, which allows for a genuine sense of creativity and originality. This form of magic has allowed him to perform for countless celebrities and dignitaries.
